

**UPDATE... ELEVATE...
FACILITATE...**

WEBINAR QHP SERIES

for

Quality Healthcare Professionals (QHP)

"The only thing that is constant is change", Heraclitus. Change in your career, change in your organisation, change in your personal and professional life. One of the most effective ways of dealing with change is with lifelong learning.

Today, lifelong learning is a self-motivated persistence in acquiring knowledge and competencies in order to expand your skill set and develop future opportunities.

With increase in complexity in healthcare, there is a need for quality healthcare professionals to update their knowledge, who will steer the execution of the advanced scientific practices in line with the national and international quality standards. This will improve their personal and professional development in an effort to avoid stagnation and to reach their full potential to excel in their career as a QHP.

**Free for SRC certified QHP's
and
for others 200/- registration fees**
